Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order—the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

I have tested its virtues personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw. Have tried forty other remedies before Simmons Liver Regulator, and none of them gave sure relief, but the Regulator not only relieved, but cured.

W. H. JONES, Macon, Ga.

Women and Trinity College.

Trinity college, Dublin, with sublime indifference to such trifles as a general election, gave itself up for the whole of the week to an elaborate jubilation over its 300th birthday. But there is more serious business before it. Irishwomen are beginning to claim that the whole boom of higher education should not be reserved for men. They have organized a petition, signed by 10,000 women, to the board of Trinity college, praying that the tercentenary of the college may be marked by the auspicious beginning of a new era of increased usefulness for the college. The petition is backed by the signatures of eminent members of English and Scotch universities, who have seen the actual working of university education for women. —Fall Mail Gazette.

Davy's Researches.

Sir Humphry Davy was so much interested in electricity that he made many experiments which have become historical in their utility. His brilliant discoveries so excited him that he could with difficulty leave them for needed repose. He would have killed himself by his constant experiments and steady application to the science had he not become prostrated and his life endangered thereby. His remarkable experiments, brilliant and triumphant, are yet to be outdone by more modern philosophers. Sir Humphry Davy's great battery, composed of 2,000 cells, became world wide and historically honored. It was the origin of the first flashes of what is now termed the electric arc. That was eighty years ago, and note the grand discoveries since then.

The idea of two pieces of charcoal, one about an inch long and one less than a sixteenth part of an inch in diameter, being brought near to each other, till they produce a bright spark, for so they did. One part of the coal was immediately ignited to a whiteness, and by removing them apart Davy found a constant discharge of electricity took place sufficiently strong to heat the air in a given space three times their size. He caught the idea in a moment and studied out the mystery which the two pieces of coal had produced, a grand scheme and discovery. He saw the most brilliant ascending light, like a glowing arch, broad and perfectly conical in the middle.

The philosopher experimented to his heart's content, each day bringing forth new discoveries, and there is now no higher scientific name known to men or more honored for his great works and discoveries than Davy, who, like Franklin, lived in his scientific experiments and for humanity.

He, too, saw glorious discoveries to be made, and hoped to live to witness the result of many of his own discoveries. —New York Telegram.

Strange Indian Heads.

Among the Indians of North America many strange beliefs are held respecting demon heads that wander about, sometimes harmlessly and at other times for malignant purposes. Some of them are of gigantic size, with wings, while others have faces of fire.

There used to be a society among the Iroquois organized for the purpose of propitiating these extraordinary terrors. The latter, according to popular conception, most commonly moved about from tree to tree in solitary places, where they were apt to be encountered, much to the discomfort of hunters and women who chanced to be alone in the forest. Few things can be imagined more disagreeable than to meet unexpectedly in the woods a great head six feet high, without legs, arms or body.

Occasionally these remarkable creatures would talk, but it was chiefly at night that they had a fiery aspect, their favorite nocturnal haunts being marshes and pools. Members of the exercising society wore masks in imitation of the heads when they performed ceremonies for the purpose of driving such demons away. Of course the fire faces were invented to account for the jack-o'-lanterns or "signes fatui" which haunt moist places. —Washington Star.

JOB WORK

Call at the Journal Office,

SILVER PARTY TICKET.

FOR PRESIDENTIAL ELECTORS:
HON. THOMAS WREN,
Of Eureka.
HON. M. S. BONNIFIELD,
Of Humboldt.
HON. C. C. POWNING,
Of Washoe.

ALTERNATE ELECTORS:
HON. GEO. S. NIXON, Of Humboldt
HON. GEO. BROWN, Of Storey
HON. W. J. WESTERFIELD, Of Lyon

THE SILVER LEAGUE CONVENTION.

The act relating to elections and to more fully secure the secrecy of the ballot approved March 13, 1891, requires among other things that:

The names of candidates for Presidential Electors shall be arranged in groups as presented in the several certificates of nomination, and the names of the candidates for President and Vice President shall precede the proper groups of Presidential Electors; the political designation of each candidate shall be printed opposite his name.

The State Convention of Silver Leagues which assembled in Reno, June 24th, nominated three candidates for Presidential Electors, namely, Hon. Thomas Wren of Eureka, Hon. M. S. Bonnifield of Humboldt and General C. C. Powning of Washoe. The platform adopted by the convention says:

"We pledge the nominees of this convention for Presidential Electors, to support no man for President or Vice President of the United States who is not unqualifiedly in favor of free coinage as defined by this convention. We reserve to the Silver Leagues of Nevada, in State Convention assembled, the right of directing said Presidential Electors for whom to cast their votes should contingency require."

It is urged that only the Silver Leagues have authority to name the candidates for President and Vice President under which the group of electors shall be placed on the ticket as required by law, and the Humboldt Silver League invites all the Silver Leagues of the State to meet in convention at Winnemucca on the 15th instant and endorse Weaver for President and Field for Vice President of the United States. This will authorize the arrangement of the group of silver electors under the names of Weaver and Field, and prevent a possibility of votes for Messrs. Wren, Bonnifield and Powning being invalidated for informality.

It should be borne in mind that the platform of the Silver party pledges the Presidential Electors to support no man for President and Vice President of the United States who is not unqualifiedly in favor of free coinage of silver at the ratio of 16 to 1. The electors accepted the nomination subject to that pledge and also to the right of direct them for whom to cast their votes. As General Weaver is the only Presidential candidate pledged to free coinage it is only right that he should head the ticket on which their names are printed as electors, as without instructions from the Leagues in convention he is the only man they can support for President. The Elko Independent, the Tascadero Times Review, Austin Advocate, Belmont Courier and White Pine News place the names of Weaver and Field above those of the electors, but neither newspapers or individuals have the right to arrange them on a ballot. That the electors will vote for General Weaver no silver man doubts but it is necessary in order that the law may be complied with to have the Leagues in convention direct that their names be placed under those of Weaver and Field on the ballots.

THE STATE TICKET

It is stated that Secretary of State Gray will recognize as the regular Republican party the convention which nominated Harrison Electors, and that the Silver Republicans will have to petition to get the names of the nominees on the ticket. If such is the case the silver men should make up a ticket composed of all the Silver nominees and head it with General Weaver for President. Something like this would answer:

POPULIST TICKET.
For President, James B. Weaver.
For Vice President, James G. Field.
For Presidential Electors, Thomas Wren of Eureka, M. S. Bonnifield of Humboldt, C. C. Powning of Washoe.
For Representative in Congress, Francis G. Newlands of Washoe.
For Judge of the Supreme Court, C. E. Belknap of Ormsby.
For Regent of State University (long term), Henry L. Fish of Washoe.
For Regent of State University (short term), Charles E. Mack of Storey.

The Harrison-Cleveland organ claims to have accomplished what it advocated, that is splitting the Republican party in two and having one faction nominate goldbug electors and the other a silver man for Congress. In the convention which nominated the silver man—Mr. Newlands—for Congress the organ had about as much influence as the Hong Kong Gazette, and the convention which nominated Harrison electors Mr. Newlands repudiated. The organ defeats everything it advocates and if any of the candidates it now favors have to be elected they should request it not to say a word in their favor.

Matters of Interest From Home and Abroad.

CHOLERA IN NEW YORK CITY.

Two More Vessels Having Cholera Aboard Arrive at New York.

JOHN L. SULLIVAN EN ROUTE.

Following the Trail of the Collis Train Robbers—The Races at Independence, Iowa.

A Little More About Cholera.

WASHINGTON, September 3.—Assistant Secretary Spaulding said there was no occasion for any friction in the administration of quarantine regulations, and he did not think any existed. Dr. Jenkins has been very busy and has not had time to read the proclamation carefully. He is satisfied that things would properly adjust themselves. A dispatch from Counsel General Edwards at Berlin, received at the State Department to-day, said that cholera was officially declared to exist in forty places in the north of Germany. The City of Hamburg shows an increase in the number of cases and a decrease in the death rates.

New York, September 3.—Nothing can now save the metropolis from the great plague but absolute compliance on the part of every member of the community with the instructions of the Board of Health and the quarantine authorities. The danger is real; it cannot be overestimated. Newly infected steamships arrived in harbor to-day with awful stories of death and suffering. They were the Regie and Normania, both from Hamburg. The Regie buried five steerage passengers at sea and had five living cholera patients still on board when she cast anchor. The Normania buried four steerage passengers and one cabin passenger. She had four patients still alive, one being a member of the crew. It is claimed that the cabin passenger who died on the Normania was suffering from diabetes only. The convalescent cases are considered very serious, and more deaths are likely to occur.

The first death on board the Normania occurred August 29th. Carl Hegert, a second-class passenger, had been taken down with a disease which the ship's physician diagnosed as cholera. A similar case was discovered about the same time in the steerage. Cholera symptoms developed rapidly in both cases. When the two died the authorities of the ship recognized the serious condition of affairs, and at once took all possible precautions to prevent the disease from spreading among the other passengers on board the vessel. Notwithstanding their efforts, several other illnesses of a like nature were soon discovered. The surgeon carefully isolated all patients. There was great alarm among the passengers when they learned that the dreaded disease had appeared on board the vessel. Some ignorant passengers were completely panic-stricken. In spite of all the precautions taken by the ship's officers, more cases soon developed. Five more were taken ill in the steerage, four being children. Cholera symptoms developed rapidly in each case, and another death occurred in the steerage on the following day.

The Regie, the other post ship of the Hamburg American Packet Company, which arrived in port to-day with cholera, left Hamburg, August 21st. The first death occurred a week after leaving port. Two other passengers were taken ill about the same time. The commander of the Regie and the surgeon did everything to prevent the spread of the disease, but the ignorance and recklessness of the steerage passengers made the efforts of no avail. Other cases of a similar kind soon appeared, and seven more passengers were taken down with the disease. Five were still in the hospital when the Regie was sighted off Fire Island this morning when Jenkins admitted the reports.

It was 11 o'clock at quarantine when Dr. Jenkins made his reports. He said: "Gentlemen, according to my report, there were nine cases of cholera on the Regie, four deaths and five convalescents. On the Normania there were five deaths and are now four convalescents. On the Moravia there is one additional case to-day, an 8-year old boy. All the dead were buried at sea. All convalescent cases are serious, and further deaths are expected to-day. These people are isolated in the ships' hospitals. All three ships will be held indefinitely."

Dr. Jenkins has issued the strictest kind of orders, and under no circumstances will he allow any one to approach the vessels quarantined. Further cases are anticipated on the Moravia also. The patients on board the Normania, Regie and Moravia would, it is said, probably be transferred to Swinburne Island to-day. A diagnosis in each case was cholera. Dr. Jenkins did not doubt that the source was cholera. He says he continues hopeful of keeping the disease in the lower bay.

Even a worse state of affairs is anticipated on the two additional vessels expected from Hamburg within the next week which left later than to-day's arrivals and when the disease made greater ravages in Hamburg. Almost all of the dead and sick on the Regie and Normania left from Hamburg or near by ports. The quarantine officers are in a state of nervous excitement. They had been hoping for the best

and the Normania was expected to get by safely. When the sailors passengers on the vessel will get off is a question Dr. Jenkins has not yet decided. Dr. Jenkins early this morning telegraphed for Prof. Herman Biggs, consulting pathologist of the Health Department, and Prof. Wm. Wells, Professor of Bacteriology of John Hopkins University. They arrived shortly after noon, and without waiting for lunch Dr. Jenkins took them down to the steamboat wharf. Dr. Jenkins proceeded to Swinburne Island and then to the infected vessels in lower quarantine.

Preparations had begun for the transfer of patients to Swinburne Island at 8 p. m. The Normania's mail, having been thoroughly fumigated, was placed on board a steamboat and taken to New York. The steamer Umbria left quarantine for the pier at 5:30 this afternoon.

All first and second-class passengers were transferred from the City of Rome about 6 o'clock and the steamer left for the pier.

To-morrow Dr. Jenkins proposes to establish a quarantine patrol in the lower bay and keep passing vessels and newspapers large 1,000 feet from the Regie and Normania. He will also prohibit fishermen from fishing in the bay.

There was great excitement at the Hamburg American Packet Company's office when the news got out the Regie and Normania had arrived with cholera on board. Hundreds of persons called in search of information about friends or relatives and passengers on the ships. Every clerk in the company's office was kept busy for hours answering questions. Many letters were sent to persons known to be on board and left at the company's office for delivery through the quarantine officers who go on board. When asked how long the cabin passengers would be detained at quarantine, the clerks in the company's office promptly answered that they would not be detained more than five days, probably not so long. They did not say on what information they based their statement.

The ship S. D. Carlton will be taken to the lower bay to-morrow and will be the headquarters for the police squad which will patrol the waters to see there is no communication with the detained steamers. SAN FRANCISCO, September 3.—The health officers here are neglecting no precautions to prevent the introduction of cholera. Chinatown has been thoroughly cleaned, and four wagonloads of chloride of lime will be sprinkled throughout that section. The Latin quarter and other districts will also be cleaned. Fruit merchants and owners of markets have been notified to clean up their establishments and dispose of all garbage, under penalty of arrest.

George C. Perkins, President of the Pacific Coast Steamship Company, to-day telegraphed his agents not to accept any steerage passengers from Canada. Mr. Perkins said that although this order would mean considerable loss to the company, he issued it to aid the Government in its efforts to keep out the disease, as, in his opinion, if cholera reaches the Pacific Coast it will come by way of Canada.

Following the Trail of the Robbers. SAN BERNARDINO, September 3.—Two squads were formed last night to follow the men who called at Mrs. Robinson's near Colton and who are believed to be the Collis train robbers. These squads were formed of three men each, one going by the way of Box Springs and the other by the way of Beech Canyon, searching all trails for tracks of the two men. The squads met at Moreno early this morning and having found nothing started on their way to this city. On their way back they struck a fresh trail of two men leading into the foothills through the brush. The officers followed the trail for several hours without result and finally gave it up as the robbers had twelve hours start. Now posers are now being formed in Colton by Detective Smith in conjunction with the sheriff's office to head off the men. It is believed here that there is a fair prospect of their capture.

SULLIVAN EN ROUTE. BRIMINGHAM, Ala., September 3.—The Sullivan car from the Sullivan special at Oakdale was detached to avoid the possible detention in Tennessee of Sullivan's backer, Charlie Johnson. A warrant is alive against Johnson for being a legacy of the Sullivan-Kilrain fight. A small crowd was at the station as the main section of the train stopped at Chattanooga. They were disappointed at not finding the champion aboard. Sullivan was awakened and went to the baggage car with his trainers at 7:30 o'clock. He tossed a five-pound leather bag 20 minutes and then slipped rope, when a rubbing down followed. Before lunch Sullivan was again taken into the baggage car and put through the same exercise and then rubbed down and was ready for dinner.

MORE RACES. INDEPENDENCE, Iowa, September 3.—A light attendance, good weather and track were the principal features of the closing day of the great Elks Park meeting. In the two-year-olds' trot for \$5,000, Silcock won in two straight heats, Ora Wilkes, second, Wilkes Maid, third and Lucille fourth. Best time, 2:30 1/2. In the 2 1/2 year pace for \$1,000, San Pedro won in three straight heats, Barney second and Maud M third. The others were drawn or distanced. Best time 2:10 1/2. Roy Wilkes, once champion pacing stallion of the world, started against his mark of 2:08 1/2, and paced a mile in 2:07 1/2.

Professor Moses Elected President. SAN FRANCISCO, September 3.—Professor Bernard Moses was to-day elected President of the University of California by the University Regents. Professor Moses for a number of years has held the Chair of History and Political Economy at the University.

The People's party of the Eleventh Congressional District of Iowa nominated Daniel Campbell and his nomination has been endorsed by the Democrats, thus ignoring his election.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the systemic effects of the disease, banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced."

GEORGE A. PAGE, Watertown, Mass.

PEOPLE'S PARTY!

Call for a County Mass Convention of Washoe Co.

—TO BE HELD AT—

McKissick's Opera House

MONDAY,

September 5, 1892

At 10 O'clock A. M.

For the purpose of organizing a People's Party in Washoe County, and nominating a County Ticket.

ALL voters who are pledged to support no man for office who is not pledged by platform to free coinage of silver at the ratio of 16 to 1, and who are desirous of meeting in Convention at McKissick's Opera House on the 5th day of September next, at the hour of 10 o'clock, for the purpose of organizing the People's Party in Washoe County, also for the purpose of nominating and placing before the people a county ticket, and for the disposition of such other business as may be necessary to give effect to all matters included in the preamble, signed:

BREVITIES.

Lighting field will not blister.
J. M. Fulton arrived from the West yesterday.

The public schools of Carson open tomorrow.

Hon. F. G. Newlands returned from Carson last evening.

D. A. Bender was a passenger on last evening's V. & T.

I never thought anything would soften the hands like Molina.

Sam Platte of Carson has gained admission to the Stanford University.

The overland trains have been arriving nearly on time the past week.

Teeth extracted painlessly, \$1; old method, 25 cents. Porter Brothers.

The Democratic State Central Committee will meet at Carson on the 14th inst.

A mortgage for \$780,000 has been filed on the Baldwin Hotel and Baldwin ranch.

Plumbing, tinning and pipe work done at the lowest possible prices by Lange & Schmitt.

A number of Carson visitors were in attendance upon the tennis tournament last week.

The State University will open tomorrow. A number of students have already arrived.

It is understood that Senator Stewart donated \$100 to the Miners' Union at Carson yesterday.

Governor Colcord was in town yesterday attending a meeting of the Regents of the State University.

Bargains in cook stoves, heating stoves, ranges and house furnishing goods at Lange & Schmitt.

W. H. A. Pike arrived on the west-bound and returned on the east-bound train last evening.

Henry Riter and wife departed last evening for California. They will visit the California State Fair.

United States Judge Thos. P. Hawley passed through Reno on his way to Carson from San Francisco yesterday.

The Appeal says that some of Carson's wheelmen are getting in trim for the bicycle races to take place at the State Fair.

The force of men recently suspended from the Mint were reinstated, with one or two exceptions, on the first of the month.

Persons who visited Carson yesterday say that Congressman Bartine is announced as a candidate for United States Senator.

Professor Edward Everett Winfree, B. S., leaves this morning for Winnemucca to resume his duties as Principal of the public school.

Miss Blanche Atherton departed for Verdi yesterday morning. She will take charge of the public school at that place, which opens tomorrow.

The Central Nevada says the Plutas and Shoshones are having a fandango in Blossom's field near Battle Mountain. There are about 300 Indians in attendance.

The tariff was wholly and utterly ignored by the Harrison as well as the anti-Harrison convention, proving that very little interest is taken in the matter in this State.

Four Democratic Presidential electors in Mississippi have withdrawn from the ticket and party and come square out for Weaver and Field. "A vote for Weaver is a vote for Cleveland."

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purses to provide for the comfort and convenience of guests.

R. Herz has completed badges for the members of the Reno Fire Department. The fire ladders are very proud of them, and well they might be, for they are beautiful in design, finely engraved and of a neat and tasty appearance.

The Journal office was presented yesterday with some fine watermelons by D. W. Bryant, who raised them on his ranch at Glendale. They were large and luscious and in every respect equal if not superior to the imported "million."

Cal Kaappa's residence at Carson was ransacked by burglars Friday, and \$35 in coin stolen. The gang that was operating in Reno some little time back, has probably moved to Carson, as no burglaries have been reported here lately.

Professor A. E. Harris of Dayton has gone to Lovelocks to take charge of the public school at that place. The Times says Professor Harris is an excellent teacher and has an enviable reputation wherever he has taught school.

The much talked-of prize fight which was to have taken place in Carson yesterday afternoon did not come off. Myers' father in some manner interfered and prevented this meeting. Brady, one of the principals, arrived on the V. & T. last evening and will spend a few days in Reno.

It was at 9:30 last night when the Moon began an occultation of the planet Mars. The plane was hidden for about an hour and ten minutes. No telescope was needed as the phases of this occurrence were plainly visible to the naked eye. Mars will not go into hiding again for twenty years.

There were but nine cars of passengers from Virginia in attendance at the Miners' Union picnic at Carson yesterday. A lively interest was taken in the games, and those who attended seemed to enjoy themselves. The rifle shooting match resulted as follows: Carson Guard, 426; Battery A, 487; E. Smith, 355.

THE TENNIS TOURNAMENT.

A Large Crowd in Attendance—Interesting Contests.

The interest in tennis circles was kept up yesterday by a large number of spectators being present, and the games were very interesting, as was manifested by the loud and continuous cheering and hand-clapping that followed every good play.

Van Harlingen and Moore were defeated in the doubles by Lewers and Thurtell by the score of 6-4, 6-1.

Lewis and Neall were defeated by Cain and Hacker by the score of 6-2, 6-2.

In the mixed doubles, Hacker and Miss Vale defeated Earl and Miss Rising by 6-0, 3-6, 6-3.

Moore defeated Cain in a hard game by the score of 6-4, 6-4.

Thurtell defeated Hacker, 6-3, 6-1.

Phillips defeated Thurtell in a very interesting match, 7-5, 6-2.

Cheney and Phillips defeated Cain and Hacker, 6-0, 6-4.

Lewers and Thurtell won the championship of the State over Cheney and Phillips in a long drawn out and well contested match by 1-6, 4-6, 7-6, 6-3, 6-3.

Miss Anna Martin won the championship of this State over Mrs. F. R. Lewis in the best games of tennis ever witnessed here between lady contestants. The game was full of brilliant plays on both sides, and the winner could not be guessed by the spectators until the last play had been made. The result was 6-1, 3-6, 6-6.

Moore defeated Van Harlingen by 6-2, 4-7, 6-1.

In the mixed doubles Mrs. F. R. Lewis and Moore defeated Mrs. Vale and Hacker by 5-7, 6-0, 6-3.

In the final singles, only two sets were played between Phillips and Moore, and resulted in a victory for the former by 6-3, 6-3. This game had to be postponed until Monday evening at 8:30 p. m. on account of darkness, as were also the mixed doubles.

Miss Stanaway and Thurtell defeated Miss Newlands and Phillips by the score of 4-6, 7-5, 6-1.

Mrs. F. R. Lewis defeated Miss Newlands in a very good game by 6-1, 1-6, 6-1.

After the finale in the ladies' singles and gentlemen's doubles had been finished, Judge Cheney made a few very appropriate remarks and presented a very handsome pin to Miss Martin, donated by Hon. F. G. Newlands, and two racket cases to Messrs. Lewers and Thurtell, given by the Pastime Tennis Club.

THEY CHEERED FOR WEAVER.

An Incident at the Late State Encampment.

A bit of unwritten history of the late State Militia Encampment at Camp Colcord has just come to light. It seems that after all the maneuvers, etc., had been accomplished at the close of the week's encampment, and the orders read permitting the soldier boys to return home the next day the officers got together and concluded to march the troops around to Colonel Lord's tent and give the gallant commander three rousing cheers of good will. This was accordingly done and the troops came to parade rest in a long line in front of his tent and gave three cheers and a tiger that shook the echoes all over Eagle Valley.

Three cheers were then given for Major Phil Reiber followed by three each for the different captains. The Tascara Guard, however, was the last on the line, and as they had participated in several cheers for somebody, they did not know whom, as the name did not reach them, the Captain at last concluded that they would start a cheer of their own for someone they did not know, and proposed three cheers for General Weaver. The other companies had just got through, and a momentary hush had fallen, when "three cheers for General Weaver," came in stentorian tones from the Captain of the Tascara. It was given with a zest that must have caused the golden residents of Carson to think that Grandfather's hat might not be big enough to cover Nevada after all.

THE HONEY LAKE EXCURSION.

An Explanation From the Secretary of the Honey Lake Valley L. & W. Co.

The following explains itself:

SAN FRANCISCO, September 2, 1892.

NEVADA STATE JOURNAL, RENO, NEV., GENTLEMEN:—There seems to have been some misunderstanding between myself and Mr. Fulton of the N.-O.-O. Road regarding a round trip rate of \$4 from Reno to "Taylor's Camp" and return, on the Monday train going north. I therefore write to ask you to say in the JOURNAL that if people who contemplate going will buy the regular round trip ticket issued by the N.-O.-O. at \$6, and will notify us of the fact on their arrival at camp, we will ourselves refund to them the \$2.

Yours very respectfully,

Jno. D. LANE, Secretary.

Church Notices.

Baptist Church.—Preaching to-day at usual hours, morning and evening. Rev. T. P. Bradshaw will occupy the pulpit at the morning service.

M. E. Church.—Dr. Dickenson will preach in the morning and in the evening there will be a familiar talk or review of our recent Conference session. All are cordially invited.

Trinity Church.—Rev. Erasmus Van Doolen, Rector. Twelfth Sunday after Trinity. Services 11 A. M. and 7:30 P. M. This is a free church and is supported by voluntary offerings.

St. Isidore's Church.

J. L. Campbell of Dayton publishes the following in the Lyon County Times:

"I notice that the hallers from the Republican Convention held in Reno this week, have placed me upon their State Central Committee as a member from Lyon county. As I am in favor of the free coinage of silver and the advocate of no man for President who is not, I take this method of stating to the public that I most emphatically decline to accept the appointment tendered me."

"J. L. CAMPBELL."

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

A MINERAL EXHIBIT.

A Proposition to Have One Sent From Nevada to the World's Fair.

The Elko Independent says Commissioner Russell has received a communication from E. G. Morrison of Eureka relative to making an exhibit of the mineral resources of our State at the World's Fair.

"Mr. Morrison and Dr. Snider of Eureka have two of the finest mineral collections in the State, and perhaps in the world, and they are willing to loan them to the State for the purpose of making a proper showing of our mineral resources at Chicago."

"These collections comprise specimens from all parts of Nevada and the islands of the sea. Mr. Morrison has arranged his cabinet into a mineral alphabet, a unique feature, which would attract a good deal of attention from visitors to the exposition and be the means of calling the attention of capitalists to the great mineral resources of our State."

"All Mr. Morrison asks for the use of his cabinets in that he be appointed to take charge of the State mineral exhibit at a salary not to exceed \$150 per month and transportation of himself and collection to and from Chicago."

"Mr. Russell sent the letter to Mr. Skiff of Colorado, Chief of the Mining Bureau, and it is hoped that some steps will be taken by the proper authorities to have these collections placed on exhibition at Chicago, where they would not fail to attract the attention of people from all parts of the world who visit the greatest exposition the world has ever seen."

THE PEOPLE'S PARTY.

A Mass Convention to Organize It.

In Washoe county as in several other counties in Nevada, a call is issued for a mass Convention to organize the People's party. This convention is to be held at McKinnis's Opera House at 10 o'clock tomorrow.

The call is signed by several of the most prominent men and heaviest taxpayers in the county and though farmers are very busy it is thought there will be a good attendance.

The method proposed for nominating candidates is modeled on the secret ballot system. Every voter pledges, as has been the custom, to support the nominees of the convention. It may be, if the convention believes it best, that a day will be named for holding primary elections in the several precincts of the county for choosing delegates to a county convention to be held at a subsequent time. There seems to be a determination on the part of many good citizens to organize the People's party and nominate a ticket that will command itself to every good citizen and deserve his support at the polls.

FOSTER'S WEATHER FORECASTS.

Copyrighted 1892 by W. T. Foster.

St. Joseph, Mo., September 2, 1892.

My last bulletin gave forecasts of a severe storm wave to cross the continent from September 7th to 11th. The next will reach the Pacific Coast about the 13th, cross the western mountains by the close of the 13th, the great central valleys from 14th to 16th, and the Eastern States about the 17th.

Very warm weather will precede this disturbance, and the cool wave following it will bring no destructive frosts. Rainfall will be generally distributed, and a fair stage of water will continue in the Mississippi. Navigation on the lakes and rivers will close late this season.

A wave of cooler weather will cross the western mountains about the 15th, the great central valleys about the 17th, and the eastern states about the 19th.

Notice.

Reno, September 1, 1892.

The advertisement appearing in the JOURNAL of September 2d headed "Fourth Excursion to Honey Lake Valley" has not been placed in your paper by anyone connected with the N.-O.-O. Railway, nor will there be excursion tickets sold as advertised nor any rate given other than our tariff rates.

J. M. FULTON, M. of T.

Enforce the Rule.

EDITOR JOURNAL:—Some time since the merchants of Reno, by common consent, agreed to close their places of business promptly at 8 p. m., Saturdays included. By this course all were treated alike and no one was the loser, but with time a legacy is creeping in which will eventually destroy the comfort enjoyed through the present arrangement. "A word to the wise is sufficient."

RENO, September 3, 1892.

Jack Gaultrey serves a first-class meal and fresh oysters in every style at the Palace Restaurant. Meals at all hours.

Handicapping Trotting Horses.

Handicapping trotting horses by distance "stake" has become a regular feature of the English turf, and to judge from their prevalence seem to be regarded as a success. The idea is not a new one abroad. In point of fact it has been practiced ever since British trotting has amounted to anything.—Boston Herald.

Ship of an Admiral, who was the Duke of Wellington's near connection, was wrecked. He was placed in command of a second ship, which was also lost and he himself was drowned. Lord Charles communicated the disaster to his father, who merely exclaimed, "That's the second ship he has lost."—Fortnightly Review.

AN EXPLANATION
AND ANSWER.
WHAT IS WINTERILLA?

Why, it is a pleasant and effective remedy for the positive cure of Chapped Hands, Poison Oak, Salt Rheum, Eczema, Sun Burn, Tan; positively removes Freckles, and is one of the grandest luxuries for gentlemen after shaving. This is an excellent article prepared with the greatest care by scientific experts. Its component parts are perfectly harmless, and the ladies toilet is not complete without it. One trial will convince the most skeptical that what we say of WINTERILLA is true. For sale by all druggists in 25c and 50c bottles.

For sale by Wm. Pinniger.

SOCIETIES.

Miss Marlowe's Birthplace.

Calbeck, England, is a quaint mountain town in the mining region of Cumberland. Southeast of it is the famous lake region. Very near is Cockermouth, where the Wordsworths were born; and farther to the southeast, under the "brow of the mighty Helvellyn," are Gramere, where the poet and his sister lived so many years, and which was later the scene of De Quincey's wild dreams, and Keswick, the home of Southey and Coleridge. Just over this edge of the region which inspired the famous lake school of poetry was born, Aug. 17, late in the sixties, a child destined to reflect great credit on the player's art and to wear the deep regard of the American theater going public in the last decade of the Nineteenth century.

The evolution of talent, or the sudden sprouting of the seeds of genius from apparently barren soil, is an interesting study to all intelligent men and women.

The child in question, Sarah Frances Frost, has become well known to this decade as Julia Marlowe, and was an example of the developing of talent from what seemed to be an absolutely unprepared stock. Nowhere in the past of either family from which she sprang is discernible the line of generation which has given to the American stage one of the most charming personalities which graces it today.

The childhood of little Fannie, as she was then called, gave no promise of the future. When she was five years old her parents immigrated from England, settling first in Kansas; but a year later they moved to Cincinnati, where the child was placed at school. There were soon noted some of the qualities that have since distinguished her. She was a show child, reading uncommonly well and possessing a good singing voice. It was the latter which resulted in her first appearance on the stage—Mildred Aldrich in Arena.

Kitchen Work a Broad Occupation. Kitchening seems to be the only species of work that no one needs blush for, and, after all, does not hunger justify the means? In the midst of that period of the French revolution known as the reign of terror, did not the ex-Capucine monk, Chabot (an expert in the science of good living) invent the "omelette truffee aux pointes d'asperges," and also "a la puree de pintades"? Did you know that it was to the elector of Bavaria that we owe the "bavaroise," which was prepared and made up by his own chefs for the first time at the Cafe Procope? Modern history also offers noble examples to our admiration. The Empress Elizabeth, of Austria, that accomplished horsewoman, that sovereign of a court, where aristocratic prejudices are of the strongest kind, glories in her talent as a pastry cook. Her daughter, the Archduchess Valeria, boasts of having peat-trated all the secrets of the ancient and modern cuisine. Queen Victoria is very fond of making omelets, and it seems she has several recipes. Her daughter-in-law, the Princess of Wales, excels in preparing tea and buttered toast.—Paris Intermediaire.

The Design of a Jewel. The design of a jewel should be such that we can take pleasure in the idea of its permanence. We associate permanence with a star, and therefore a star form in jewelry is agreeable. But transient forms, like flowers or ribbon bows, unless they are much conventionalized, present a disagreeable congruity. They ought to change with time, and they do not. Imitations of such objects may please for a moment the curiosity of the vulgar, but interest in them, even for such, is exhausted as soon as they have been examined, and the cultivated taste finds them intolerable. Interest in an object of true art, on the contrary, never grows less.—Harper's Bazar.

The Parting of the Ways. Wilkins and Watkins were college chums and close friends. They had been hard students and had taken little out-door exercise. When they shook hands and said good-by, at the end of their college career, they were in impaired health. Both had dyspepsia, liver troubles and troublesome coughs.

Wilkins had plenty of money, and decided to travel for his health. Watkins was poor. "I must go to work for my living," said he, "but I'll try the remedy that Robinson talks so much about—Dr. Pierce's Golden Medical Discovery."

In less than two years, Wilkins came home in his coffin. Watkins now in the prime of life, is a bank president, rich and respected and weighs 200 pounds. "The Golden Medical Discovery" saved my life at a critical time," he often says. "Oh, if poor Wilkins had only tried it!" For weak lungs, spitting of blood, all lingering coughs, and consumption in its early stages, it is an unequalled remedy.

"August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations

A worn-out with beneficial results, I procured a bottle of August

Stomach. Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES R. DEDRICK, Saugerties, New York.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

ANNUAL STATEMENT

Union Building and Loan Association.

For and About Women.
England has 20,000 women farmers. Floral shippers are the correct thing to throw after a bridal pair. Women exclusively run a Wimsborough (N. C.) canning factory. The dowry of a Turkish bride is fixed by custom at about \$1.70. Rosa Bonheur has just completed a painting for which she has refused \$60,000.

The household maintained by the queen of England consists of nearly 1,000 persons. One of the most capable leaders in the suffrage party is Laura Clay, daughter of Cassius Clay, of Kentucky. The late Mrs. Curtis, of Philadelphia, was for years a manufacturer of Masonic regalia. When this country was but nine years old a woman took a patent for a straw weaving machine.

A Chance for Maine Women.
The contractor who is building the milk factory at Winthrop is reported to have offered ten dollars to the lady who will go to the top of the chimney and lay the last brick. The chimney will be 110 feet high. Here is an opportunity for some woman to get her name in the papers, and perhaps break her neck in the attempt, but it is not at all likely that the offer will be taken. Lots of Maine women are enthusiastic for new manufactures, but they help build them in other and more sensible ways than this.—Bangor Commercial.

An Interesting Discovery.
Humboldt has a young woman's military band that goes around playing for picnics and celebrations. It may be all right for a woman to play on a brass horn, but it makes the lips hard just the same.—Kansas City Star.

A Sensitive Family.
July 16, 1876, Jean Lafargue, his wife and a daughter nineteen years of age committed suicide by hanging themselves in the dining room, all because a neighbor had accused them of stealing vegetables from her garden. This at Oise, France.—St. Louis Republic.

A Dangerous Question.
Little Girl—How old are you?
Miss Antique—I—er—how old do I look?
Little Girl (after reflection)—Bout a n—red—Good News.
